

AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claims 1-36 (Canceled).

37. (Currently Amended) A game information storage medium utilized for a first game machine having a first architecture, comprising:

at least one game program for a second game machine having a second architecture different from the first architecture of the first game machine, said game program having a game title;

at least one emulator program which emulates the second game machine in the first game machine to thereby render the game program executable on the first game machine, said emulator program being associated to the game title of the game program; and

a game selection program for the first game machine and for displaying information indicative of a game title of the game program to be selected by a player, wherein when

the game information storage medium is utilized on the first game machine, the game selection program is executed to permit a player to select a game title, and, upon selection of the game title, the game program corresponding to the selected game title is
